

O! KULT INSTITUTION

O! KULT : WORK! - IN THE NAME OF REVOLUTION

POWER - ENERGY - INTENSITY - WORK

The begining is power and indestructible force of work!

The end is power and indestructible force of work!

We got power to enslave with industrial manipulation and industrial exploitation.

Thoughts in production process are removed and suppressed. Exist only rhythm, perfect rhythm of countless industrial factories and machines. It is aesthetically perfected and enrichment with a lot of sensitivity, intuition in controlling chaos and in building ALLMIGHTY WORK, work to liberate and work to enslave!

We do not declare the end nor industry extermination, we perform dictatorship of the proletariat above it own.

We are extremity of operationing and extremity of produced energy in function to enrich every subject - internal and external.

Communication with consumers is direct - with saved critical consciousness which is not excluded by using alienation effects, but it is also strenghten by Marxists theory platform and experiences from the past and in present time, eith perfect serious of expression and operationing as facts as reality and from neutral and objectical position on which O! KULT is based.

Manual work - satisfaction - happyness of each subject in production process in sinchroniziing bodies and masses!

Selfdiscipline and organisationing on highest grade of technology produces rhythm of countless machines, it produces unstand noise in forming monotony and ritual of work and communication with all present subjects.

Power and confrontation, hate and love,- all emotions are erased and removed and destroyed; exist only impulses, the impulses which appeal which are absorbed by bodies, the impulses which enslave subjects with demon charges - charges of activity, charges which regenerate thoughts and reactions.

O! KULT WORK is a new religion - neither dogma, nor destruction of work, but the highest form of freeing individuals by work and freeing from they own.

We use portrait of black square - the symbol of power and fanatical appertaining to idea in ritual and purifycational meaning, to the symbol of adouring and propaganda. From symbol we absorb its energies which are used in process of our operationing.

We use work as perfect fact - in religious meaning- not to escape in dreams of illusions, but as total, perfect physical and mental man's essence.

We use images of totalitarian states and regimes, we fetishised energy and impression of them, like we fetishised energy and impression of maschines.

We use pure energy for our operationing and for source of strain!

O! KULT reject all catagories, all kind of determinations and disqualificationing of INSTITUTION's operationing!

POWER OF MANUAL WORK IS INDESTRUCTIBLE!

POWER OF O! KULT IS INDESTRUCTIBLE!

POWER! - ENERGY! - INTENSITY! - WORK!
